MANHATTAN LEASE IS BEING WORKED

BIG CRUSHER GOES FORWARD TO AUGMENT PRODUCTION OF MILL

An ore crusher with a capacity of 600 tons in three shifts has been received in Tonopah by Wittenberg & Mushett and will be forwarded to Manhattan and placed in their Big Pine mill. It will be operated at only 240 tons daily, for that is the present tube mill capacity of the plant.

These two men have also taken a lease on the Manhattan Consolidated property and started work on it this morning. The first operations will be in the Kendall stope above the 700-foot level, where there is at present exposed 2 1/2 feet of ore that will run \$15 a ton. The ore will be hauled to the mill in an auto truck.

KLONDYKE DISCOVERY LOOKS PROMISING

MR. DUGGAR OPENS UP A LEAD OF NINETY DOLLAR QUARTZ

Charles Duggar, a well known prospector from the vicinity of Ely and Cherry Creek and who sold the Success group of claims close to Ely for \$10,000 to a number of Salt Lake capitalists, has been prospecting during the past two months a group of five claims situated about 3 miles north and slightly west of the Klondyke property of James Golden in that locality. Mr. Duggar opened up last Thursday from 12 to 18 inches of a rhyolite porphyritic quartz on his Gold Coin No. 1 claim. There is an old tunnel on the property, driven, it is claimed, 15 to 18 years ago by former owners and allowed to lapse. The course of the vein is about east and west and the tunnel was driven for quite a distance paralleling the vein and then crosscutting the formation diagonally, southeast and northwest. The mineralized zone is from 12 to 15 feet in width and there are several small but fairly rich seams and veins found in this big mineralized formation.

Mr. Duggar had a number of assays made on his ore that he is now taking out and got returns of \$90 in gold and a few dollars in silver. Samples of the rock show both free gold and native silver and go to prove that it is a discovery of considerable merit and doubtless will be thoroughly inspected by those following the prospecting game.

A. H. Schite, S. Ross and F. C. Rowan have locations side and ending line Mr. Duggar's find but they also state that there is a considerable area of good looking country still open for location in the vicinity of the discovery.

BELMONT MILL TO START JULY FIRST

OIL FLOTATION PROCESS WILL BE USED ON DUMP AND MINE ORES

Rapid progress is being made with the installation of the mill that is being constructed at Belmont by the Monitor-Belmont Mining and Milling company. C. A. Sergeant, a mill constructor, who has been on the job since the beginning, is in Tonopah today on his way back to camp after a visit to Los Angeles.

He reports that the mill will first be busied with the dump ore, of which there is 50,000 tons running better than \$10 a ton. Meanwhile operations in the mine will be put under way. The mill uses the oil flotation process. It will have a capacity of 150 tons a day for the first unit. The extraction is expected to run 95 per cent although the test shows a possibility of extracting close to 98 per cent. The principal shareholders in the Monitor-Belmont are Los Angeles people.

MOTION PICTURE ACTORS WILL SHORTLY ARRIVE

W. L. James and J. Fred Smith, promoters of the Nevada Film company, left this morning for Los Angeles to assemble the company. They will return in about two weeks, bringing fifteen professionals, the nucleus of the company, which will be recruited locally. The studio will be erected near the city, probably in the vicinity of the ball park. It is expected that the first picture, the scenario for which has been accepted, will be in course of preparation within a month.

IS GREATLY PLEASED WITH MINE SCHOOL

ENROLLMENT REACHES 41 AND GOOD WORK IS ALREADY BEING ACCOMPLISHED

"The Tonopah school of mines has made a splendid start," said Dr. Lincoln, the dean of the Mackay school of mines of the University of Nevada, under whose direction the Tonopah school is being conducted. He continued:

"The enrollment has reached forty-one, although three have left camp, reducing this to thirty-eight. The students are all enthusiastic and are taking hold of the work well. Mr. Bennett is an able teacher and has secured the respect and good-will of his students and of the community at large.

"With this auspicious beginning, it is to be hoped that the citizens of Tonopah and the mine operators will not let the work of the school become handicapped by lack of funds. Just at present while algebra and geology are the only subjects taught, no laboratory equipment is required; but later, when chemistry, mineralogy, assaying, mechanical drawing and surveying are taken up, considerable equipment will be needed. The total cost of outfitting a laboratory for chemistry, mineralogy and assaying will be about \$1000, while the outfit for mechanical drawing and surveying will cost a like amount, so that \$2000 is all that is required to place the school in good shape to take care of classes of the present size.

"This amount will be materially reduced if good second-hand surveying instruments and assay balances can be obtained cheaply. It would even seem possible that some of the mining companies having more of these instruments than they need might present them to the school of mines."

CARD PARTY

The Woman's Relief Corps will give another one of its delightful afternoon card parties at the Butler hall, Wednesday afternoon. A list of prizes has been secured and refreshments will be served. The admission fee will be 25 cents. The public is cordially invited. The receipts go to the relief fund which at present is in a depleted condition.

ELKS' BALL PROMISES TO BE GALA EVENT

Under direction of a committee consisting of Don C. Lewers, A. A. Dewar and J. S. Mullins, the yami-yami party to be given by Tonopah lodge, No. 1662, B. P. O. E., in the Elks' home Thursday evening, promises to be a very delightful affair. All present will be in costume. Special music has been provided for the occasion.

Notice is hereby given according to law that the partnership heretofore existing between the undersigned under the firm name and style of Thackery & Ritchie has this day been dissolved by mutual consent. All debts and obligations due said firm must be paid to Al Thackery, who will liquidate all indebtedness of said firm.

Dated, Tonopah, Nevada, May 17, 1915.

M2116 AL THACKERY, DON RITCHIE.

MISS DAVIDOVICH DIES IN EUROPE

HER TWO BROTHERS ARE FIGHTING IN THE MONTENEGRIN ARMY

Sad news was received yesterday by George Davidovich of this city. He received a letter from his wife, who with her niece and two nephews went to Europe before the war and, since hostilities began, they have been able to send but two letters. The latter one bore the sad tidings of the death of the niece, Miss Violet Davidovich, aged 24 years. She was born at Sodaville and spent a number of years in Tonopah, where she will be mourned by many friends.

Her two brothers, who were also born at Sodaville, are fighting in the Montenegrin army. The Davidovichs are living in Dalmatia, which is now occupied by Montenegrin forces. So near is their home to the fighting line that Mrs. Davidovich witnessed a battle from her window.

TRIBUTERS FIND VALUABLE SHOOT

OLD WORKING IN MIDWAY DEVELOPS SMALL VEIN OF HIGH GRADE ORE

A very interesting and valuable find has been made 700 feet north of the old shaft on the Midway Consolidated Mining Company on the 500-foot level. The discovery was made in what is known as the 435 west drift. This is in the lease block of Messrs. Lindsay, Lathron and Novacovich. For some time they have been following a stringer, which has now opened out to fifteen inches and the indications are that the width will increase. An average of the vein is \$127.20. There are now fifty men owning or interested in leases in the old workings of the Midway and a number of them are in ore. Shipments are now being made regularly.

OPPORTUNITY FOR THOSE DESIRING AUTOMOBILES

William Rebohy, driving for J. C. Durham, Nevada state distributor for the Reo 4 and 6-cylinder touring cars and Reo 2-ton trucks, left Reno at 7:15 a. m., with a Reo the fifth, 1915, recently sold to the Keane Wonder Mining company in Death valley. He stopped en hour for dinner at Sweetwater and arrived in Tonopah the same evening at 8:45. The car averaged 24 miles per gallon of gasoline on the trip. Mr. Rebohy left for Reno this morning to bring in a 1915 6-cylinder Reo for H. A. Weisbar of the Wood-Sullivan company.

The 4-cylinder 1915 Reo sells for \$1175 f. o. b. Reno and the six-cylinder sells for \$1525 Reno. Mr. Durham has a number of second hand cars that have been traded in on late Reo models, among the maseveral exceptional bargains. He can be found at the Mizpah or at the Hotel Goldfield for the next few days.—Adv.

AMUSEMENTS

PASTIME THEATER

Jesse L. Lasky presents Thomas W. Ross, the favorite juvenile star, in "The Only Son," at the Pastime today. The picture has a deeper significance than many of the Lasky productions and is closer to the human heart, especially in the big sympathetic chord it strikes in compassion for the erring. The strong note is not thrust into prominence, but the quiet lesson conveyed is more impressive on that account. The play is a romance within a romance and each more gripping than the other. It has made a decided hit in all the large cities where it has been shown. The acting throughout is superb, and the settings are exceptionally interesting.

Tomorrow Clara Kimball Young, who is a favorite with Tonopah people, having resided here some years ago, will be seen in "The Deep Purple," a Lieber feature presented by the World Film corporation.

THE AIRDOME

The struggles of an innocent man to live down a prison record is strongly brought out tonight at the Airdome in the big two-reel Universal feature, "No. 329," featuring Murdock MacQuarie. This thrilling picture was taken from life, from the story of an ex-convict of San Quentin. Ford Sterling, the world-renowned comedian formerly with the Keystone company, will be seen in the single-reel comedy, "Neighbors."

"The Love of the Parent," a drama of frontier life, and Pauline Bush in "Her Life's Story."

Tomorrow, an unusual program featuring some of the first-class Universal actors, J. W. Warren Kerrigan in "The Gentleman from Kentucky," and Ben Wilson and Dorothy Phillips in "A Lesson from the Far East," both two-reel features. Billie Klenle, the rival of Charlie Chaplin, in the comedy sketch, "The Fatal Note."

—Adv.

BUTLER THEATER

Another interesting program will be shown at the Butler this evening, consisting of four reels of pictures as follows: "Just a Lark," a Biograph comedy; The Fable of "The Busy Man and the Idle Woman," a George Ade comedy, which always assures a quarter of an hour of real fun, and concluding with "The Saving Circles," being the fifth episode of "The Exploits of Elaine," showing something new in each and every episode. In this one "Wu Fang" uses an aeroplane, which is very exciting. Tomorrow, a Broadway Star feature in three reels, featuring Harry Morey, Edith Storey, Harry Northrup and Roger Lytton—a feature in every sense of the word. Beginning Thursday, the Tonopah public will be given a treat in hearing America's prima donna soprano—Gloria Mayne, who has toured the

MANY MINERS EMPLOYED IN MASON VALLEY

As there seems to be few idle men around town, we have inquired into the whys and wherefores of this condition and found that the mines are again employing quite a number of men in the vicinity—something like 200 men employed in Aurora, 85 by the Nevada-Douglas, 40 by the Pittsburg Liberty, 45 in Masonic, 50 or more at Bodie, 20 at Mason Valley smelter, 12 at Nevada-Progressive, 15 at Pine Grove and about 75 around the hill, making a total of 542. Not such a bad showing after all, when it is taken into consideration that none of the big mines are producing because of the shutdown of the smelter. —Yerington Times.

WOMEN OF WOODCRAFT GIVE A CARD PARTY

The card party given last evening by the Women of Woodcraft at the Knights of Columbus hall was well attended and an enjoyable time was had by all. The following were awarded the prizes for card playing: Ladies' first prize, Mrs. Walter Ross; consolation prize, Mrs. Charles Mackey. Gentlemen's first prize, Pete McLaughlin; consolation, Arthur Woodworth.

Mrs. E. L. Marks, a caterer of renown from Monrovia, Cal., has opened a first-class dining hall at 130 Summit street, opposite the Catholic church. Why pay \$35 per month when you can get the best in town for \$30? Fried chicken every Sunday.—A26M36
